

WILL FOSTER

UX / UI Designer

wjfooster0@gmail.com | willfoosterdesign.com

PROFESSIONAL SUMMARY

Strong experience building design systems, running user research and usability testing, and delivering end-to-end product design. Sole designer since 2022 across two live B2B SaaS products, building the company's first design system from scratch and cutting front-end development time by roughly a third. Covering everything from research and wireframing through to high-fidelity UI, design tokens, developer handoff and branding.

DESIGN EXPERIENCE

UX / UI Designer

Midsummer Energy | 2022 - 2025

Sole designer across two live B2B SaaS products, Easy PV and Heatpunk, in a company that had never had a design team. Built its first design system from the ground up: a Figma component library, design tokens and documentation, cutting front-end development time by roughly a third. Owned the process end to end, from user research and usability testing through wireframing and prototyping to developer handoff, designing to WCAG standards for a less digitally literate user base. Later took charge of all product design, working with the Managing Director on SaaS sites, shop sites and branding.

Joined via a company-wide graduate scheme, gaining cross-functional experience across sales, operations and technical support before moving into design.

Design Engineer

Pioneer Pump | 2020 - 2021

Designed, engineered and built pump sets for floods, mines and quarries. Led a project to convert half of the existing EMEA fleet from fossil fuel to electric power, and converted existing canopies to be stackable. Updated datasheets, guides and visuals with modern, coherent designs.

ADDITIONAL EXPERIENCE

Travel Consultant

Flight Centre, Australia | January 2026 - May 2026

Full-time client-facing role during a working trip to Australia. Focused on understanding client needs and translating them into tailored solutions, sharpening skills in listening, problem-solving and clear communication, directly transferable to user research and stakeholder work.

EDUCATION

BSc Product Design and Technology, 1st Class Honours

Loughborough University | 2018 - 2022

3 A-Levels: AAB - Mathematics, Product Design, Economics
